

I am writing in support of the current FM translator service currently in service. I do not support allowing the Low Power FM broadcast service to overpower the current FM translator service. I currently listen to K-LOVE and have enjoyed the opportunity to a station that is available in many cities. I enjoy being able to change the station as I enter a new city and here the same awesome music. K-LOVE provides a great service to the community and offers hope in a time when so many stations do not. Please know that I do not stand alone in my belief. I encourage you to continue to allow stations such as K-LOVE to continue their station as usual.
